Dataset: UCI Predict Students' Dropout and Academic Success (4,424 rows, 36 features, 3 classes). Split: 70/15/15, stratified (3096/664/664). Seed 42, at most 100 epochs, batch size 64, early stopping (patience 15). Accuracy and macro-F1 are in %. "Best ep." is the epoch where the validation loss was lowest.

All 24 configurations (training and validation only)
